2017 - 2018 (62%)  
GOVERNMENT HR SEC SCHOOL

## SKILLS

### Web Development:

- HTML/CSS (bootstrap), JavaScript and PHP (API and Database).

### Software Development:

- Java, C# and (API and Database).

### Designing Tools:

- Adobe Illustrator and Canva

## CERTIFICATIONS

- Fullstack Web Developement

## ACHIEVEMENTS

- Revamped the Smart Finance website for easy software purchases.
- Launched a crypto product-selling website.
- Developed the Smart IT Job site for project management.
- Built a Smart IT Job application on Android with seamless login, registration and video content display.
- Created the Smart Trading Tool for desktop and Android with 25+ trading strategies.
- Contributed to group projects, demonstrating strong teamwork.

## WORK EXPERIENCE

Since joining Smart Finance in October 2022, I've developed a crypto website, a job-seeking platform, and a course application. I also contributed to the Smart Trading Tool and updated the Smart Finance website, providing client support and implementing trading strategies with API data.

## PROJECTS

**Smart Finance**(Fullstack Developer) OCT 2022 - AUG 2024

- Crypto Smart Analysis - [www.cryptosmartanalysis.com](http://www.cryptosmartanalysis.com) (Jan 2023 - Apr 2023):**

I developed this static site using HTML, CSS, JavaScript, and PHP. The website showcases three unique crypto products and includes a registration page with CAPTCHA, a 7-day free trial system via PHP mail, automatic username generation, a demo video player, and PayPal integration.

- Smart IT Job - [www.smartitjob.com](http://www.smartitjob.com) (May 2023 - Oct 2023):**

I contributed to this job-seeking website for Smart IT, which features 100 projects, a user login system with CAPTCHA verification, automatic session logout, and options for users to purchase projects for their portfolios.

- Projects for Smart IT Job (Nov 2023 - Feb 2024):**

Developed projects for the Smart IT Job website ([www.smartitjob.com](http://www.smartitjob.com)) using React, Android, PHP, JavaScript, and C#. These projects were created specifically for sale, aimed at helping job seekers enhance their skills and job prospects.

- Smart Finance - [www.smartfinancein.com](http://www.smartfinancein.com) (Feb 2024 - May 2024):**

I updated our main website by implementing new designs and code changes using HTML, CSS, JavaScript, and PHP. These updates enhanced the website's visual appeal and functionality.

- WPF Software Development (Jun 2024 - Sep 2024):**

I worked on the Smart Trading Tool project, developed desktop (WPF with C#) and maintaining versions. We implemented 30 trading strategies using API data, with historical data fetched via PHP and live data from Money Control.
